

# MAINSTAY CONSULTANTS YOUR SUSTAINABILITY PARTNER..

About us

# WHY WE EXIST

We are an integrator... Today's business need solutions not in isolation but in integration, meeting operational and business goals on a sustainable basis.

We focus on sustainability at each process. We develop, build strategic models and solutions for sustainable business processes.

- Integrated Water Resource Management Services
- Integrated Environmental Management Services
- Integrated Social Performance and Risk Management

# WHAT MAKES US UNIQUE

We provide integrated sustainability solutions customized to meet client needs and challenges.

- We integrate Environmental, Water, Social, Risk and compliance performance areas.
- We do primary impact assessments from the very source of raw material procurement, process, discharge and disposal.
- We develop integrated mitigation plans and provide support to execute and measure performance of each process.
- We provide third party audits for water, social, environmental, risk and compliance processes.

# WITH WHOM WE WORK

We work with business that draw raw materials from open environment.

Business that have to interface with stakeholders such as communities and other competing users. Business processes that often collaborate with civil society institutions, regulators and media.

- Water-intensive industries, Beverages, Breweries and FMCCG sector
- Paper and pulp and Mining
- Textiles and Pharma sector
- Food Processing sector

# WHAT WE OFFER

We offer integrated water solutions in following areas of Sustainable Business :

- Ground and Surface water assessment studies
- Source water protection and sustainable Water Resources Management
- Wastewater Management and Greenbelt optimization solutions
- Environmental Assessments and studies
- Environmental Compliance Management
